MEMORANDUM

TO: Tony Gomillion, County Administrator

FROM: Stephen Furman, Public Works Director 

DATE: August 26, 2016

SUBJECT: Acceptance of Constitution Drive for Paved Road and Drainage Maintenance

RECOMMENDATION

Discussion of acceptance of Constitution Drive for Paved Road and Drainage Maintenance from Highway 98 to the northern limits of the paving. Approximately 2,800 feet.

BACKGROUND

Constitution Drive was dedicated as a public road on the Record Plat of Commodore Park, in Plat Book C, Page 156, in 1981. The roadway was not full constructed at that time, and was not accepted by the county for roadway and drainage maintenance. In the late 1990's the West Navarre Intermediate School was constructed with a connection to Constitution Drive. Since that time, Constitution Drive is used extensively by parents during the drop-off and pick-up times. The citizens of Constitution Drive approved an MSBU for roadway resurfacing in 2005. This paving work was completed for the majority of the roadway, the exception was that the northern 290 feet +/- was not paved. This recommendation is to accept the southern 2,800 feet +/- of Constitution Drive, in its present condition, for Paved Road and Drainage Maintenance with the declared understanding that this roadway was improved to the current standard through the MSBU process, and with the special circumstance that school traffic creates a significant impact on the road. These special circumstances adhere to the conditions discussed by the BCC during the June 11, 2015 meeting for acceptance of roadways for maintenance. The Public Works Department supports this recommendation for acceptance.
